- **Full-year Company orders of \$14.3 billion, up 40 percent year-over-year**
- **Strong project execution drives early delivery of Yamal LNG Train 3**
- **Non-cash after-tax asset impairment charges of \$1.7 billion**
- **Full-year distributions of \$681 million from dividends and share repurchase**

LONDON & PARIS & HOUSTON--(BUSINESS WIRE)--Feb. 20, 2019-- Regulatory News:

TechnipFMC plc (NYSE: FTI) (Paris: FTI) (ISIN:GB00BDSFG982) today reported fourth quarter 2018 results.

Total Company revenue was \$3,323 million. The Company reported a net loss of \$2,259.3 million, or \$5.00 per diluted share. These results included total after-tax charges and credits of \$2,220.3 million, or \$4.91 per diluted share. Adjusted net loss was \$39 million, or \$0.09 per diluted share.

Total after-tax charges and credits in the quarter of \$2,220.3 million were as follows:

1) After-tax charges and credits impacting operating results of \$2,006.1 million, which included the following (Exhibit 8):

- Asset impairments totaling \$1,688.8 million for goodwill and other fixed assets;
- A provision of \$280 million as a probable estimate for the aggregate settlement of investigations regarding historical projects; and
- Restructuring charges, business combination costs, and purchase price accounting adjustments totaling \$37.3 million.

2) Charges and credits impacting the tax provision of \$214.2 million, which included the following (Exhibit 8):

- A tax provision for the true-up of U.S. tax reform of \$11.8 million; and
- A tax provision for valuation allowances of \$202.4 million.

Adjusted EBITDA, which excludes pre-tax charges and credits, was \$342.4 million; adjusted EBITDA margin was 10.3 percent (Exhibit 9).

Other significant pre-tax items impacting the quarter, for which we do not provide guidance, included the following:

- \$38.7 million of foreign exchange losses included in corporate expense, or \$0.05 per diluted share on an after-tax basis; and
- \$108.8 million of increased liability payable to joint venture partners included in interest expense, or \$0.24 per diluted share on an after-tax basis.

As previously disclosed, we are cooperating with the U.S., Brazilian, and French authorities in their investigations of potential violations of anticorruption laws relating to historical projects in Brazil, Equatorial Guinea, and Ghana, and Unaoil contracts. We have been informed that these authorities have been coordinating their investigations, which could result in a global resolution.

These matters have progressed to a point where a probable estimate of the aggregate settlement amount with all authorities is \$280 million for which we have taken a provision in the fourth quarter and year ended December 31, 2018. These matters involve negotiations with law enforcement authorities in three separate jurisdictions, and there is no certainty that a global settlement will be reached or that settlement will not exceed the provision.

Full Year 2018 Results

Total Company revenue was \$12,552.9 million. The Company reported a net loss of \$1,921.6 million, or \$4.20 per diluted share. These results included total after-tax charges and credits of \$2,298.7 million, or \$5.02 per diluted share. Adjusted net income was \$377.1 million, or \$0.82 per diluted share.

Total after-tax charges and credits for the full year of \$2,298.7 million were as follows:

1) After-tax charges and credits impacting the operating results of \$2,073.1 million, which included the following (Exhibit 8):

- Asset impairments totaling \$1,698.2 million for goodwill and other fixed assets;
- A provision of \$280 million as a probable estimate for the aggregate settlement of investigations regarding historical projects; and
- Restructuring charges, business combination costs, purchase price accounting adjustments, and a gain on divestitures totaling \$94.9 million.

2) Charges and credits impacting the tax provision of \$225.6 million, which included the following (Exhibit 8):

- A tax provision for the true-up of U.S. tax reform of \$11.8 million; and
- A tax provision for valuation allowances of \$213.8 million.

Adjusted EBITDA, which excludes charges and credits, was \$1,536.8 million; adjusted EBITDA margin was 12.2 percent (Exhibit 10).

Other significant pre-tax items impacting the year, for which we do not provide guidance, included the following:

- \$116.5 million of foreign exchange losses included in corporate expense, or \$0.16 per diluted share on an after-tax basis; and
- \$322.3 million of increased liability payable to joint venture partners included in interest expense, or \$0.70 per diluted share on an after-tax basis.

Doug Pferdehirt, CEO of TechnipFMC, stated, "Many significant achievements contributed to our success in 2018. We exceeded total Company financial objectives for a second consecutive year, largely driven by continued strength in Onshore/Offshore execution as evidenced by early start-up of Trains 2 and 3 for Yamal LNG. We also achieved notable milestones in Subsea, including the successful delivery of the industry's first full-cycle iEPCI™ projects and commercialization of our new Subsea 2.0™ product platform."

"Total Company orders were \$14.3 billion for the full year, a 40 percent increase compared to the prior year. Orders exceeded revenues in all segments, with Onshore/Offshore securing several key awards in the downstream and petrochemical sectors, driving a 95 percent increase in orders

year-over-year. In Surface Technologies, strength outside the Americas drove orders 36 percent higher than the previous year.”

“During the quarter, we progressed on outstanding investigations of historical projects and took a \$280 million provision as a probable estimate for the aggregate settlement. We continue to cooperate with all authorities in order to conclude this matter.”

Pferdehirt continued, “In Subsea, the market is rapidly embracing greater project integration. Already in 2019, we have secured new iEPCI™ projects with BP and Lundin – both first-time iEPCI™ customers. We are confident that our unique offering and experience will lead to further growth in our iEPCI™ backlog in the coming year. We also anticipate an acceleration in subsea services growth, driven by both internal investment and increased market activity.”

“The resurgence in LNG activity is confirmed with a new wave of significant LNG project opportunities. Selectivity remains at the core of our project success. With our global footprint, we are tracking greenfield and brownfield projects across four continents, representing a substantial portfolio of opportunities. We will leverage our most successful reference projects, incumbent positions, and client relationships toward those projects that are most strategic to TechnipFMC and offer the highest probability of successful execution.”

“In Surface Technologies, strong order and backlog growth in the second half of 2018 further strengthens our conviction in increased activity outside of the Americas, particularly in the Middle East. Activity in North America continues to moderate. However, we anticipate growth in the second half of 2019, driven in part by additional pipeline capacity in the Permian region.”

“Disciplined capital allocation remains a priority. Capital expenditures are focused on the best opportunities for growth and returns across the markets we serve. In 2018, we also returned \$681 million to shareholders through dividend and share repurchase activity.”

Pferdehirt concluded, “Through the hard work and dedication of the more than 37,000 women and men of TechnipFMC, we have done more than simply navigate the industry downturn. We have successfully pioneered a completely new integrated subsea model and restored growth in total Company backlog, positioning us well for further success in 2019 and beyond.”

Operational and Financial Highlights – Fourth Quarter 2018

Subsea

Financial Highlights

Reconciliation of U.S. GAAP to non-GAAP financial measures are below and in financial schedules.

Three Months Ended (In millions)	December 31, 2018	December 31, 2017	Change
Revenue	\$1,233.3	\$1,292.2	(4.6%)
Operating profit (loss)	\$(1,739.5)	\$67.4	n/m
Adjusted EBITDA	\$148.5	\$244.1	(39.2%)
Adjusted EBITDA margin	12.0%	18.9%	(685 bps)
Inbound orders	\$880.6	\$1,724.8	(48.9%)
Backlog	\$5,999.6	\$6,203.9	(3.3%)

Subsea reported fourth quarter revenue of \$1,233.3 million. Revenue was down 4.6 percent from the prior year as projects in Africa were completed or progressed further towards completion, largely offset by increased activity in North America, Asia Pacific, and South America.

In the quarter, the Company recorded pre-tax asset impairment charges totaling \$1,775.6 million in Subsea. These non-cash charges resulted from our annual fair value assessment of our business and assets; these include impairments to goodwill and fixed assets, including a reduction in the carrying values of certain vessels within our fleet.

Subsea reported an operating loss of \$1,739.5 million; included in the operating results are total pre-tax charges of \$1,803.1 million. Adjusted EBITDA was \$148.5 million with a margin of 12 percent. Adjusted EBITDA declined versus the prior-year quarter primarily due to the execution of more competitively priced backlog, partially offset by merger synergies and other cost reduction activities.

Vessel utilization rate for the fourth quarter was 62 percent, down from 69 percent in the third quarter and 65 percent in the prior-year quarter.

Fourth Quarter Subsea Highlights

- **Total Egina (Nigeria)**

First oil achieved for one of the largest subsea projects to date in West Africa; continuing involvement through a services contract.

- **Total Kaombo (Angola)**

Mobilization of the Skandi Africa in advance of the hookup campaign for the South floating production, storage, and offloading unit (FPSO).

Subsea inbound orders for the quarter were \$880.6 million, reflecting the continued strength in small project activity and subsea services. Full-year inbound orders were \$5,178.5 million, resulting in a book-to-bill of 1.1.

* Backlog does not capture all revenue potential for subsea services.

** Non-consolidated backlog reflects the proportional share of backlog related to joint ventures that is not consolidated due to our minority ownership position.

Onshore/Offshore

Financial Highlights

Reconciliation of U.S. GAAP to non-GAAP financial measures are below and in financial schedules.

Three Months Ended (In millions)	December 31, 2018	December 31, 2017	Change
Revenue	\$1,672.4	\$2,019.5	(17.2%)
Operating profit	\$206.4	\$257.2	(19.8%)
Adjusted EBITDA	\$217.2	\$294.5	(26.2%)
Adjusted EBITDA margin	13.0%	14.6%	(160 bps)
Inbound orders	\$1,609.4	\$874.2	84.1%
Backlog	\$8,090.5	\$6,369.1	27.0%

Onshore/Offshore reported fourth quarter revenue of \$1,672.4 million. Revenue declined 17.2 percent from the prior-year quarter as we moved closer to completion on major projects, primarily Yamal LNG.

Onshore/Offshore reported operating profit of \$206.4 million; adjusted EBITDA was \$217.2 million with a margin of 13 percent. Operating profit declined 19.8 percent versus the prior-year quarter, primarily due to the revenue decline and a shift in revenue mix to lower margin project work. Strong project execution continued on Yamal LNG, with all three trains now handed over to the customer; operating results in the period also benefitted from a bonus for completion of further milestones on the project, including Train 3. These same factors drove the year-over-year decline in adjusted EBITDA.

Fourth Quarter Onshore/Offshore Highlights

- **Energiean Karish iEPCI™ (Israel)**
Hull cutting ceremony (China); steel cutting ceremonies for the electrical house module (Indonesia) and topsides (Singapore).
- **ENI Coral South FLNG (Mozambique)**
Topsides cutting ceremony in Korea.
- **Equinor Martin Linge (Norway)**
Early occupancy of living quarters; platform's power supply from shore achieved.

Onshore/Offshore inbound orders for the quarter were \$1,609.4 million. Full-year inbound orders were \$7,425.9 million, resulting in a book-to-bill of 1.2. The following announced award was included in the period:

- **Neste Renewable Products Facility Expansion (Singapore)**
Significant* Engineering, Procurement support, and Construction management services contract by Neste for the expansion of their renewable products refinery in Singapore. The expansion aims at meeting the market demand for renewable products.
* A "significant" award ranges between \$75 million and \$250 million (TechnipFMC share).

The following award was announced during the period and will be included in the first quarter 2019 inbound orders:

- **MIDOR Refinery Expansion and Modernization (Egypt)**
Major* Engineering, Procurement, and Construction (EPC) contract by Middle East Oil Refinery (MIDOR) for the modernization and expansion of their existing complex near Alexandria, Egypt. TechnipFMC has successfully completed the remaining conditions required to enable work to commence on the contract.
* A "major" award is over \$1 billion (TechnipFMC share).

Total	\$8,090.5	\$1,748.5

* Non-consolidated backlog reflects the proportional share of backlog related to joint ventures that is not consolidated due to our minority ownership position.

Surface Technologies

Financial Highlights

Reconciliation of U.S. GAAP to non-GAAP financial measures are below and in financial schedules.

Three Months Ended (In millions)	December 31, December 31,		Change
	2018	2017	
Revenue	\$417.3	\$372.3	12.1%
Operating profit	\$38.8	\$53.3	(27.2%)
Adjusted EBITDA	\$64.9	\$75.8	(14.4%)
Adjusted EBITDA margin	15.6%	20.4%	(481 bps)
Inbound orders	\$435.1	\$392.9	10.7%
Backlog	\$469.9	\$409.8	14.7%

Surface Technologies reported fourth quarter revenue of \$417.3 million. Revenue increased 12.1 percent from the prior-year quarter. Increased drilling activity in North America as well as market share gains drove wellhead product sales higher; sales of hydraulic fracturing rental equipment also moved higher as market share gains more than offset the market decline in completions activity. International revenue growth was driven by pressure control sales and aftermarket services.

Surface Technologies reported operating profit of \$38.8 million; adjusted EBITDA was \$64.9 million with a margin of 15.6 percent. Operating profit decreased versus the prior-year quarter primarily due to the rapid decline in flowline product sales, which resulted in an unfavorable product mix. The same factor drove the year-over-year decrease in adjusted EBITDA.

Fourth Quarter Surface Technologies Highlights

- **Chevron Frame Agreement (North America)**

Covers the supply of surface wellheads, production trees, and related services in the United States and Canada.

Inbound orders for the quarter were \$435.1 million. Full-year inbound orders were \$1,686.6 million, resulting in a book-to-bill of 1.1.

Backlog was \$469.9 million. Given the short-cycle nature of the business, most orders are quickly converted into sales revenue; longer contracts are typically converted within twelve months.

Corporate and Other Items

Corporate expense in the fourth quarter was \$393.6 million. This includes a provision of \$280 million as a probable estimate for the aggregate settlement of investigations regarding historical projects, and charges and credits totaling \$23.3 million relating to merger and integration costs, restructuring and other severance charges, and purchase price accounting adjustments. Excluding charges and credits, corporate expense was \$90.3 million; this included \$38.7 million of foreign exchange losses.

Net interest expense was \$116.6 million in the quarter, which included an increase in the liability payable to joint venture partners of \$108.8 million.

The Company recorded a tax provision during the quarter of \$242 million. The provision was impacted by a true-up for U.S. tax reform of \$11.8 million and a valuation allowance of \$202.4 million.

Total depreciation and amortization for the quarter was \$137.9 million, including depreciation and amortization related to purchase price accounting for the merger of \$24 million.

Capital expenditures were \$112.9 million during the quarter; expenditures were \$368.1 million for the full year.

The Company repurchased 2.5 million shares during the quarter for total consideration of \$58.4 million. During the quarter, the Company completed the \$500 million share repurchase program that was implemented in October 2017. The Board of Directors approved an additional \$300 million share repurchase program in December 2018.

Cash flow from operations in the quarter was \$159.3 million. The Company ended the period with cash and cash equivalents of \$5,540 million; net cash was \$1,348.3 million.

2019 Financial Guidance¹

TECHNIPFMC plc AND CONSOLIDATED SUBSIDIARIES
GAAP FINANCIAL STATEMENTS

The U.S. GAAP financial statements for TechnipFMC plc and consolidated subsidiaries are provided on the following pages. The financial results reflect the following information:

- On January 16, 2017, TechnipFMC was created by the business combination of Technip S.A. (Technip) and FMC Technologies, Inc. (FMC Technologies).

Therefore, the results for the twelve months ended December 31, 2017:

1. Include the results of Technip for the full period;
2. Include the results of FMC Technologies for the period January 17 to December 31, 2017; revenue of \$112.9 million during the period from January 1 to January 16, 2017 were excluded, of which approximately 70 percent was reported in Subsea and the remainder in Surface Technologies.

When referencing these financial statements, adjusted EBITDA is also used to describe EBITDA excluding amortization related to the impact of purchase price accounting and other charges and credits.

TECHNIPFMC plc AND CONSOLIDATED SUBSIDIARIES
NON-GAAP FINANCIAL MEASURES

The Reconciliation of U.S. GAAP to non-GAAP financial measures for TechnipFMC plc and consolidated subsidiaries are provided on the following pages. The financial results reflect the following information:

- On January 16, 2017, TechnipFMC was created by the business combination of Technip S.A. (Technip) and FMC Technologies, Inc. (FMC Technologies).

The Non-GAAP results for the twelve months ended December 31, 2017:

1. Include the results of Technip for the full period;
2. Include the results of FMC Technologies for the period January 17 to December 31, 2017; revenue of \$112.9 million during the period from January 1 to January 16, 2017 were excluded, of which approximately 70 percent was reported in Subsea and the remainder in Surface Technologies.

When referencing these financial statements, adjusted EBITDA is also used to describe EBITDA excluding amortization related to the impact of purchase price accounting and other charges and credits.

Exhibit 6

RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES
(In millions, unaudited)
Charges and Credits

In addition to financial results determined in accordance with U.S. generally accepted accounting principles (GAAP), the fourth quarter 2018 Earnings Release also includes non-GAAP financial measures (as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended) and describes performance on a year-over-year basis against 2017 results and measures. Net income, excluding charges and credits, as well as measures derived from it (including Diluted EPS, excluding charges and credits; Income before net interest expense and taxes, excluding charges and credits ("Adjusted Operating profit"); Depreciation and amortization, excluding charges and credits; Earnings before net interest expense, income taxes, depreciation and amortization, excluding charges and credits ("Adjusted EBITDA"); and net cash) are non-GAAP financial measures. Management believes that the exclusion of charges and credits from these financial measures enables investors and management to more effectively evaluate TechnipFMC's operations and consolidated results of operations period-over-period, and to identify operating trends that could otherwise be masked or misleading to both investors and management by the excluded items. These measures are also used by management as performance measures in determining certain incentive compensation. The foregoing non-GAAP financial measures should be considered by investors in addition to, not as a substitute for or superior to, other measures of financial performance prepared in accordance with GAAP. The following is a reconciliation of the most comparable financial measures under GAAP to the non-GAAP financial measures.

TECHNIPFMC PLC AND CONSOLIDATED SUBSIDIARIES
RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES
(In millions, unaudited)

	December 31, 2018	December 31, 2017
Cash and cash equivalents	\$ 5,540.0	\$ 6,737.4
Short-term debt and current portion of long-term debt	(67.4)	(77.1)
Long-term debt, less current portion	(4,124.3)	(3,777.9)

Net cash \$ 1,348.3 \$ 2,882.4

Net cash (debt) is a non-GAAP financial measure reflecting cash and cash equivalents, net of debt. Management uses this non-GAAP financial measure to evaluate TechnipFMC's capital structure and financial leverage. Management believes net cash (debt) is a meaningful financial measure that may also assist investors in understanding TechnipFMC's financial condition and underlying trends in its capital structure.
